

Magnuson Park & Wetlands Trails Parking

2. Magnuson Wetlands & Promontory Pt: wetlands, forests, waterfront, Magnuson Park has several miles of trails, the best known is the waterfront walk (paved) but the less traveled trails are in the south end off of Magnuson Frog Pond parking lot, or even less crowded are the forested trails south of the USGS Fisheries Research Center. Some parking lots are closed so best parking is along the entry streets or in the NE end of the park near the Pea Patch gardens.
