1/15-16 GREEN RIVER WATERSHED ML.KING's SKI

Many times I have tried to figure out how to set up a ski tour trip into or on the boundaries of the Cedar River Watershed and Chester Morris Lake, but this entire watershed is closed to the public unless you have special authorization. Unlike the Cedar River watershed, the Green River watershed is accessible for outdoor recreation. There are some pretty high ridges both north and south of the Howard Hanson reservoir and the upper Green River gorge. The roads look ideal for skiing with many built on or near the crest of the ridge line for best views and snow accumulation. Some of the roads here are reminiscent of the White Chuck Mountain access road which follows the very crest of the ridge leading straight toward the mountain with views of Monte Cristo just off to its right. Let's hope we have clear weather for this early season trip, although more often than not it's snowing this time of year :-). This will be a great opportunity to explore some new slopes east up into the mountains from the Black Diamond area. We might even stop at the famous bakery first for some Crystal Mountain Bread! Provided: transit, lodging, maps. Dates 1/15-16 Cost \$165
