1/27-31 PARK CITY UTAH

In past trips to Utah we have always skied the weather front side of the range, and while this may be where the heavier storms drop the deepest snows it is not where the better weather is. Many of the more exclusive/genteel resorts are on the east side of the range such as Brighton, Deer Valley, Park City and the like. This is also where most of the 2002 Salt Lake City Olympic Winter Games events were held. One of our stops will for sure be Soldier Hollow, the specially constructed Nordic venue for the games. There are several other cross country trail systems at White Pine, the Solitude and the Sundance Nordic Centers. We will as usual also be doing some tour skiing into the famous Wasatch Mountains here to get a feel for their unique beauty. Our lodgings will be centrally located on the east side of the range within easy reach of all of the best nordic skiing options. Historically these mostly granitic mountains have been key to Utah's development. Even today nearly 85% of Utah's population lives within 15 miles of the range predominantly on the west side in Salt Lake, leaving the Park City side in a more (historically speaking) natural state. Most of the skiing here starts at six to seven thousand feet above sea level but despite the altitude the temperatures are rarely very cold, mostly sunny and surprisingly much the like "Ski Utah" adds claim. We will of course have to play tourist after skiing to see some of the famous resorts and restaurants here. Provided: lodging, rental car, airfare. Dates 1/27-31 Cost \$1,509
